SUPPLEMENTAL RULE 1.132 DECLARATION OF RABBI SHMUEL NEIMAN

I, Rabbi Shmuel Neiman, declare as follows:

1. This Declaration supplements my January 14, 2002 Rule. 1.132 Declaration ("Original Declaration"), which I understand was first submitted to the United States Patent and Trademark Office ("PTO") by Bernard Daskal on January 23, 2002.
2. A true and correct copy of my Original Declaration is attached hereto as Exhibit 1.
3. I understand that on September 19, 2007, the Board of Patent Appeals and Interferences ("Board") for the PTO made certain objections to my Original Declaration.
4. I also understand that on October 26, 2007, the Examiner for the above-referenced patent Application objected to my Original Declaration on the same bases as the Board.

5. This Declaration repeats, realleges and incorporates-by-reference the facts recited in my Original Declaration, and further seeks to meet the Board's and the Examiner's objections.
6. Specifically, I hereby declare that all statements made in my Original Declaration were, at the time they were made and continue to remain, true.
7. I also declare that all statements made in my Original Declaration on information and belief were, at the time they were made and continue to remain, believed to be true.
8. I further declare that all statements made in my Original Declaration were, at the time they were made and continue to be, made with the knowledge that willfully false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001, and that such willful false statements may jeopardize the validity of the above reference patent application or any patent issued thereon.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willfully false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001, and that such willful false statements may jeopardize the validity of the above reference patent application or any patent issued thereon.
